TECHNICAL SKILLS

Java	Hibernate	HTML
Spring	Thymeleaf	CSS
Python	Gradle	MySQL

PROJECT EXPERIENCE

Art Auction House - *github.com/l Snyder1/art-auction-house-spring-java*

A web-app that allows artists to share their portfolios with users. Users have a unique profile page as well as unique portfolio and favorites list. Data is persistent and a user's editing access is prohibited by login features. Users are permitted to upload images that are stored on the server outside of the project folders.

- Java, Spring, Hibernate, Thymeleaf, MySQL, HTML, and CSS

Blogz- *github.com/l Snyder1/blogz*

A Launchcode project completed in LC101. Parts of this project were given by launchcode. My assignment was to complete several tasks to complete functionality. Blogz allows users to sign up, login, create posts and read all user's posts.

- Python, GQL, Google App Engine, and HTML

Cheese MVC Persistent - *github.com/l Snyder1/cheese-mvc-persistent*

Another Launchcode LC101 project. This project was the culmination of several class assignments and demonstrates most of the tool learned in our java/spring unit. Cheese MVC Persistent allows users to add cheeses by any name they choose, associate a category from a user populated list and add various cheese objects to a menu. This project has edit, review, and delete features. This project is meant to demonstrate ability in Object Relational Mapping.

- Java, Spring, Thymeleaf, Hibernate, MySql, HTML, and CSS

TECHNICAL EDUCATION

LC101 - *Certificate*

January 2017- July 2017

- 20 week program focusing on programming fundamentals, web basics, and more advanced concepts with Java.
- Curriculum covered: Python, Jinja2, GQL, MySQL, Java, Spring, Hibernate, and Thymeleaf
- Completed several class projects

TeamTreeHouse.com

July 2017-current

Completed several lessons as needed to develop my projects and satisfy curiosities. Courses consist of videos, quizzes, and code along projects.

- Java Basics
- Spring Basics in the Java Web Development Track
- Android Beginner Development Track

CodeCademy.com

January 2017-current

Completed some lessons and partially completed others as necessary to gain relevant knowledge. Courses consist of written lessons and code completion puzzles.

- Learn Java Course
- Learn Python Course
- HTML and CSS lessons
